

Postponement of ICSSR Sponsored Two-Week Capacity Building Program

As we all are aware that our country is battling with an unprecedented epidemic of Covid-19, it is disheartening to mention that our scheduled ICSSR sponsored two-week capacity building program (5th May – 19th May 2021) has not remain unaffected. There are several direct or indirect effects on our resource persons as well as on the applicants which is posing a predicament before us about the conduct of the program and associated gains. Therefore, the scheduled capacity building program stands postponed by one month or till further notice and the dates for receipt of applications has been extended. New schedule for submission of applications can be read as:

Last date for submission of application: 26th May 2021

Display of list for shortlisted applications: 28th May 2021

Tentative date for commencement of the program: 5th June 2021
