

Notice (24/11/20)

List of M A Semester III Students allotted to teachers for Term Paper Supervision. This list supersedes the list sent earlier.

1. The list is prepared by listing the student enrollment numbers and sequentially attaching them to faculty members in order of seniority until a sequence is completed. The process is repeated until the last enrollment number of the batch is reached.
2. The number of students allotted per faculty member is fixed as follows: Professor-5; Associate Professor: 6 and Assistant Professor: 7. However, faculty members with major administrative responsibilities shall be allotted one student less than the others in the same category.
3. Students will be required to get their topics/titles registered by submitting to the department a one-page synopsis (in about 200 words) through their respective supervisors. This is necessary to avoid repetition of topics and titles across groups.
4. It is important that all supervisors advise their students to choose their areas and topics by the end of this semester and get the registration approved by the DAC.
