1. All class tests will be held in the first period between 9.15 to 10.15 am (one hour), which will include the time for writing the answers and submitting/uploading the answer scripts.

2. On exam days, the first class for the day will start from 10.30 am (by shifting the 9.15 class to 10.30 am) as per the weekly timetable.

3. Faculty members will tell the students in advance how to submit the answers/answer scripts.

4. As googleclassroom has provision for submission of questions and answers, it is advisable that we conduct our class tests using the platform. That way, we do not have to create additional facilities.

5. In case we decide to have a pen-paper examination for the new batches at a later period, we have to refer them to our online examination instructions.

6. There is a **limited plagiarism-check facility** in googleclassroom, so you may make use of the facility.
