

## Feedback Analysis & Action Taken Report for the Spring and Autumn Semesters, 2023

### Feedback Analysis:

All the students of P.G. and P.G.D.T. classes as well as research scholars are satisfied with the departmental course curriculum during the Spring and Autumn Semester of 2024. There is no major suggestion regarding our courses except two-three minor suggestions, like organizing educational trips for P.G. students and establishing cubicles for scholars. More reference books are also required besides the regular subscription of Hindi literary magazines. Actually, it is found that there is scarcity of course related study materials here because the department is situated in a non-Hindi region. Our department has faced enrollment related various problems too due to admission process of CUET. As far as the continuous evaluation system is concerned, students like it.

### Actions Taken:

1. The Feedback received from the stake-holders (Students, Alumni and Teachers) suggest that no modification is needed in the syllabi.
2. Course related materials were provided by the course teachers on their personal level.
3. The department has requested the library to purchase more Hindi books as well as to subscribe Hindi magazines. The required lists have been submitted.
4. Admission process is a policy decision but the department has found that TUEE is better than CUET especially regarding P.G. and P.G.D.T. admission.
