

MS451: Probability and Statistics

The students of MS451, Probability and Statistics, CBCT, Spring 2020, are hereby instructed to study Mathematical Expectation from the Chapter 3 of the book "All of Statistics: A concise Course in Statistical Inference" by Larry Wasserman.

Attempts are being made to upload short recorded lectures on this topic. Assignments for Test-III will be uploaded soon. Students are requested to contact the course instructor via email or phone for any queries they may have.
