

Analysis of Feedback forms from Alumni:

The department has received feedback from a total of 29 alumni in the correct format; 23 of those feedback forms were received from alumni of M.Sc. course in Molecular Biology and Biotechnology (MBBT) and 06 were received from Integrated MSc course in Bioscience and Bioinformatics.

The highlights of the feedback received from M.Sc. alumni:

1. Majority of the students felt the course may include some topics on entrepreneurship-oriented skill development.
2. Modification /inclusion of advanced Biostatistics and Bioinformatics in the course including training on some relevant software.
3. Provision of introducing current and relevant techniques (e.g. CD, DSC and super resolution microscopy, ITC, X-Ray crystallography etc.) in the course curriculum.
4. Some hands-on workshop may be arranged for the students.

The highlights of the feedback received from Integrated M.Sc. alumni:

1. Students felt the course may include some topics on entrepreneurship-oriented skill development
2. Some hands-on session on bioinformatics tools may be included.
3. Courses oriented to soft skill development may be introduced.
