OBTAINED FROM THE ORGANIZATION
WHERE THE INDUSTRIAL SUMMER TRAINING WAS UNDERTAKEN**

ACKNOWLEDGMENT

The student shall acknowledge here the concerned persons. Underlining, highlighting, or making texts bold should be avoided. Making (some of the) words italic is allowed (Font 12 TNR, line spacing of 1.5)

(Signature)

(Name of the student)

DAY AND DATE WISE DIARY (18, TNR)

Space of 3 lines of size 16

DAY 1

DATE: 04-06-2018 (16, TNR)

[Font 12 TNR, line spacing 1.5] The student shall report training related all the activities took place in the concerned organization where he/she performed the training, starting from reporting/registration there, Instructor(s) assigned for the training, topics/activities finalized for the training, etc.

Then, the student shall report in detail, day and date wise, all the technical activities took place under the training. The last day shall contain the closing of the training, such as the award of a certificate, closing function, if any, etc.

Space of 2 lines of size 16

DAY 2

DATE: 05-06-2018 (16, TNR)

[Font 12 TNR, line spacing 1.5] The student shall report what actually took place, e.g., the working principle of a centrifugal pump was explained first and then different components of a pump were also shown. Finally, an operational pump was shown and the factors generally not covered in books were also explained.

Space of 2 lines of size 16

DAY 3

DATE: 06-06-2018 (16, TNR)

[Font 12 TNR, line spacing 1.5] No material (such as theory, definition, figure, data, etc) should be produced from any book or Internet. However, such materials provided in the training may be produced. If any theory is to be explained with the help of a figure, which was not provided in the training, the student may produce a self-drawn figure (a hand-drawn figure may also be produced if it is too difficult to draw in computer).

SUMMERY (18, TNR)

Space of 3 lines of size 16

[Font 12 TNR, line spacing 1.5] The student shall write a single-page summary of the Industrial Summer Training, covering what he/she did, what new things learned, how much the training was related with his/her theoretical knowledge, what deviations from theories were observed, etc.

The summary should not contain any theory, definition, figure, table, data, etc.
