

Resolution of DAC meeting Dated April 5, 2017

The DAC of Department of Physics discussed the report prepared by the Feedback Committee based on the self-assessment reports of course instructors and has noted the following:

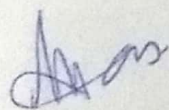

Course of Action recommended by the Feedback Committee:

Required course of action based on students' feedback and self-assessment report of instructors

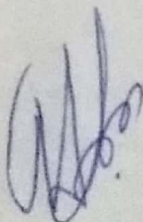

- A) Procurement of new text books and reference books as per the list provided by the students and course instructors. Courses like, Advanced Condensed Matter Physics, Advanced Classical Mechanics, Mathematical Physics, Astronomy etc. need more text as well as reference books.
- B) Procurement of new experimental facilities.
- C) Better quality chalk boards and white boards are needed in the class rooms.
- D) Installation of advanced audio-visual facility is required in bigger sized class rooms.

The DAC recommends following course of action with immediate effect.

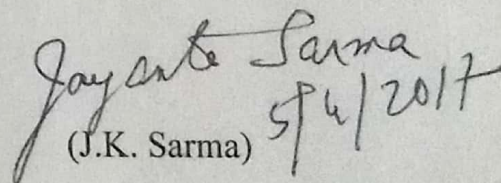

- Proposal for procurement of books be prepared.
- All the class rooms are to be provided with facilities for PPT presentation.
- Some of these class rooms is provided with Smart Board facility.
- Proposal for fixing good quality boards be prepared.
- More experimental facilities need to be created for better understanding of theory courses.
