

201

## Resolution of DAC meeting Dated June 4, 2018

The DAC of Department of Physics discussed the consolidated report prepared by the SFC based on the self-assessment reports of course instructors and has noted the following:

Course of Action recommended by the feedback committee:

Required course of action based on students' feedback and self-assessment report of instructors

- 1) Procurement of new text books and reference books to cater the needs of students undertaking special papers and project works.
- 2) Introduction of new practical and new experimental facilities for better understanding of several concepts in theory papers.
- 3) Proper ventilation and quality chalk boards are suggested.
- 4) Installation of advanced audio-visual facility in some of the class rooms.

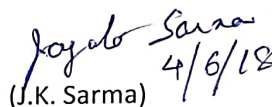

The DAC recommends following course of action with immediate effect.

- Proposal for procurement of books be prepared and fund under SAP may be utilized.
- Shared courses are encouraged, as per requirement.
- The class rooms need to provide with facilities for PPT presentation/audio visual systems.
- Proposal for fixing good quality boards be prepared and black boards be painted regularly.
- More innovative practicals be created for better understanding of theory courses.
