

TEZPUR
UNIVERSITY

Small Angle X-Ray Scattering (SAXS) System

Organised by :
**Sophisticated Analytical Instrumentation Centre
(SAIC), Tezpur University**

Date: **4 September 2018**

The training program on Small Angle X-Ray Scattering (SAXS) System aims to provide training to University researchers, MTech and Post graduate students and the technical staffs of the Centre and from different departments of the University on analyzing of samples using the SAXS instrument. The program will benefit those who are working in the experimental fields material science, chemistry, nanoscience and technology, environmental science and biological sciences.
