

Department of Energy

(Celebrating Silver Jubilee)

Tezpur University

Distinguished Lecture I

Net Zero Emissions and the role of Research in Universities

Time: 3:00 PM (IST), Date: 16th December, 2021

Prof Subhes C Bhattacharyya
De Montfort University, UK

Prof Subhes C Bhattacharyya is an internationally renowned energy specialist working on global energy environment issues for over 35 years with a special focus on developing countries. He is a Professor of Energy Economics and Policy and Director of the Institute of Energy and Sustainable Development, De Montfort University (DMU), Leicester (UK). He is also the Research Theme Director for the Net Zero theme at DMU. He has extensively investigated energy access issues in South Asia and Sub-Saharan Africa since 2002 and has led award-winning research in this area through funded projects. He has written many academic papers in peer-reviewed journals and is the author of a widely used book Energy Economics – Concepts, Issues, Markets and Governance (Springer, 2019 Second edition). He has also edited a number of other books particularly on rural electrification, mini-grids and energy in Asia. His research project OASYS South Asia received Green Gown Award for Community Innovation at the national and international categories in 2015. He has taken the role of Editor-in-Chief of Energy for Sustainable Development, an Elsevier Journal from July 2021.
