

# Tezpur University Nobel Prize Lecture Series 2020

## Nobel Prize in Physiology or Medicine 2020

*The Nobel prize in Physiology or Medicine 2020 has been awarded jointly to Harvey J. Alter, Michael Houghton, and Charles M. Rice for the discovery of Hepatitis C virus. Their pioneering work has paved the way for the development of screening methods that have dramatically reduced the risk of acquiring hepatitis from contaminated blood and had led to the development of effective antiviral drugs that have improved the lives of millions of people.*
