

Workshop on Research Methodology 5 – 10 June, 2017

Background:

Research is the bedrock of knowledge in general and higher education in particular. The institutions of higher education in India are facing crucial challenge in creating, nurturing and maintaining the level of quality research. It is essential to develop a sound methodological base of research among the researchers to cope up with challenges in the field of research. A good research methodology is a key to sound research output. To operationalize this vision, there is need to train, reorient and reactivate the research scholars on research methodology. The current workshop is an effort to enrich the Research scholars on research methodology.

About the Workshop:

The research methodology course for M.Phil./PhD students is expected to cover the fundamentals of research methodology focusing on theoretical and practical inputs. Specifically, the formulation of research problem, formulation of research hypothesis and testing of hypothesis, conducting literature review, data collection methods, selection of appropriate parametric or non-parametric statistical method for analyzing data, and report writing etc.

Objectives:

To enable the participants, define research problem, developing an approach to research problem and selection of suitable research design. To impart capabilities for formulation and testing of hypothesis based on the nature of research. To comprehend appropriateness of statistical software packages for analyzing research data. To enable the participants to understand report writing and writing research proposals. To make aware the participants about latest trends in social science research discipline.
