One-Day Workshop on Discipline Specific Curriculum Construction for Professional Development Program (September 26, 2019)

Organized By:
**Teaching Learning Centre,
Tezpur University**

Teaching Learning Centre, Tezpur University is going to organize a one day workshop on discipline specific curriculum construction for professional development program on September 26, 2019.

TLC invites nominations from the HODs of different departments of Tezpur University for the one-day workshop on discipline specific curriculum construction for professional development program. After successful completion of the program, the participants will be able to generate curriculum for short-term professional development programs (PDP) for the teachers of a particular discipline. Such professional development programs may be supported by TLC in near future.

HoDs are requested to nominate at least 2 faculty members(at least one of them should not be below the rank of associate professor) on or before August 30, 2019.

Last Date of Nomination: 30 August 2019

Nomination to be sent: tlc.tu@tezu.ernet.in

One-Day Workshop on Discipline Specific Curriculum Construction for Professional Development Program
(September 26, 2019)

Organized By:
Teaching Learning Centre
Tezpur University

Teaching Learning Centre, Tezpur University is going to organize a one day workshop on discipline specific curriculum construction for professional development program on 26 September, 2019.

Teaching Learning Centre, Tezpur University is a Centre of Excellence for Curriculum and Pedagogy under PMMMNMTT Scheme, Department of Higher Education, MHRD, GoI. TLC is constantly engaged in different activities related to the professional development of teachers.

Professional Development Program is the enrichment training provided to teachers over a period of time to promote their development in all aspects of content and pedagogy. Professional development for teachers can be understood in line with professional development of other professionals. Becoming an effective teacher is a continuous process that persists till the end of the career. Professional development programs contain different specialized training, formal education, or advanced professional learning intended to help teachers, and other educators improve their professional knowledge,

competence, skill, and effectiveness. Professional development is important because education is an ever growing, ever changing field. This means that teachers must be lifelong learners in order to enable them to teach each new group of students. Professional development not only allows teachers to learn new teaching styles, techniques, and tips, but also interact with educators from other areas in order to improve their own teaching. Professional development can be highly beneficial if the training experience is translated into classroom deliberations.

While Faculty Induction Program focuses on general aspects and techniques of teaching and it is restricted to new teachers only; a typical refresher course focuses on the changes in the content of specific discipline only. PDP is open for all teachers of a specific discipline and it covers the changes in content, techniques and style of teaching, contemporary learning methods and different tools useful for professional development within a particular discipline. However, to achieve these the curriculum for such program must be well planned and well thought out.

Curriculum Development is one of the essential parts of education. Teachers are often engaged in curriculum development for students. However teachers also need to incorporate the changes in their field for the continuous professional development. While discipline specific development should be incorporated, we can't also ignore the tools and techniques as

well and latest technology introduced in the different disciplines. A

general or universal training may not be fruitful in this regards. Therefore, we need discipline specific training program.

Hence, TLC has drawn a **3-Stage plan**

Stage 1: A One-Day workshop will be conducted on Curriculum Construction for discipline specific Professional Development Program(PDP). An eminent expert will deliver on the nuances of curriculum development followed by discussion with the participants. The participants will be nominated/deputed by HODs to represent their particular departments. After the training, the participants will be able to develop curriculum for PDP. This one day workshop falls under Stage-1.

Stage 2: In this stage the participants will consult the faculty members from their respective departments to construct a curriculum for PDP. If necessary faculty members from other institution may also be consulted. A semi-formal meeting-cum workshop can be organized by the interested departments at TLC premises. The department will finalize the curriculum and submit it to TLC for implementation

Stage 3: The submitted curricula will be implemented in the form of weeklong professional development programs for the benefit of the specific departments. Faculty members of the similar/allied discipline from

other institutions will also be invited for the training. Depending on the feedback of the participants, the curricula will be updated and finalized.

TLC plans to organize the weeklong professional development programs in a phase wise manner.

Up to 4 workshops will be conducted per financial quarters in collaboration with concerned departments of Tezpur University. All such programs will be fully supported and funded by TLC,TU under PMMMNMTT Scheme of MHRD, GOI.

TLC invites nominations from the HODs of different departments of Tezpur University for the (Stage-1) one-day workshop on curricular construction for PDP

Target group:

Faculty members from the following departments of Tezpur University are invited for the Stage-1 workshop

1. Department of Computer Science & Engineering
2. Department of Civil Engineering
