Teaching Learning Centre, Tezpur University
NOTIFICATION
EOI for Development of E-resource Repository
TU/TLC/ EOI-03/19
Date: 24/07/2019

Teaching Learning Centre, Tezpur University strives to support and provide the most useful and appropriate resources to learners and teachers in higher education through its various initiatives. As a part of the engagement, the centre aims to create a database of resource links of reference services that can be used to support, guide and enhance teaching learning. Though the initiative has already been started under the TLC scheme, in order to strengthen the database TLC invites Expression of Interest (EOI) from faculty members of Tezpur University to develop E-resource repository. These e-resources will be Open Educational Resources (OER) that are freely available for teachers and students to use, adapt, share, and reuse.

Open Educational Resources (OER) are teaching, learning and research materials in any medium that reside in the public domain or have been released under an open license that permits no-cost access, use, adaptation and redistribution by others.[i]

Interested faculty members may like to **send a mail expressing their interest** mentioning their proposed topics within their expertise for e-resource repository to: tlc.tu@tezu.ernet.in

For sample e-resources interested faculty may look at the e-resource links uploaded in TLC webpage http://www.tezu.ernet.in/tlc/publication.php

After receiving the EOI, TLC will contact with the faculty members about the guidelines of preparing the e-resource repository.

The University has allowed TLC to pay a nominal honorarium for the contributions.

Last date of receiving EOI is **August 10, 2019**.

[i] *According to the United Nations Educational, Scientific and Cultural Organization (UNESCO), Open Educational Resources are "any type of educational materials that are in the public domain or introduced with an open license. The nature of these open materials means that anyone can legally and freely copy, use, adapt and re-share them. OERs range from textbooks to curricula, syllabi, lecture notes, assignments, tests, projects, audio, video and animation."*
