

## NOTICE

With support and help received from all concerned, the alumni web portal of Tezpur University (TU) is developed for the first time for the greater interest of TU alumni community. We know, there is still sufficient scope for further improvement in the web portal and TUAA shall strive to bring continuous improvement in it. We hereby request all TU alumni to register in the web portal at the earliest. It is just a matter of few minutes; one can easily register by logging into the portal and providing some specific information. We also request all TU alumni to provide their current and updated information during the first time registration which can of course be updated later from time to time. In the news section, we intend to highlight some notable achievements of TU alumni or any alumni related news. Therefore, we request everyone to inform the association over phone or email for any such achievement. We also invite notable alumni who are doing well in their respective field of work/research to share their views about TU in the form of quotes. Suitable quotes of archival value would be considered for uploading in the portal along with the photographs of the alumni.

In the web portal, the entire alumni database is uploaded in the form of a csv file. One can search his/her name, Roll Number, department, programme of study etc. in the directory and in case of any discrepancy; the matter may be please brought to the notice of the association. TUAA will be happy to resolve such issues at the earliest for the greater benefit of the entire TU alumni committee.

TUAA and Alumni Network Development Team
