The workshop is intended for encouragement of young students, teachers and researchers from the **NE states** through active exposure to emerging diverse areas of nonlinear dynamics. Interested participants are invited to enroll their names, affiliations and full contact details through e-mail: cdsa.isi@gmail.com positively within the **15th February, 2014**.

There will be **no registration fees**.

A limited travel support may be provided.

All correspondence should be mailed to:
