A Computer Centre was established in 1997 to facilitate a common computational resource centre for the academic programmes as well as for maintenance of the other computing resources in the university. Over the years the University has grown substantially in terms of departments and academic programmes as well as in infrastructure. The computer centre has implemented a campus LAN with optical fiber backbone connecting the academic as well as administrative departments spread over the the University campus of 241 acres. Internet connectivity is provided throughout the campus with 10Mbps OFC Link (UGC-INFONET), a 2Mbps Leased Line Link and a VSAT link of 512Kbps. From October, 2011 Tezpur University has been connected to National Knowledge Network (NKN) under the NME-ICT scheme of MHRD with a 1-Gbps optical fiber connectivity. Under NKN, Tezpur University is getting 150 Mbps Internet bandwidth (100 Mbps downlink + 50 Mbps uplink). Wireless LAN has also been set-up to extend the LAN connectivity to the Hostels and the residential areas. The computer centre maintains one Central Computer Centre (CC) with about 60 latest configured PCs and one Central Server Room. It also maintains the web server, mail server, proxy server, file server, anti-virus server, administrative database server, library server of the University. Besides these servers, one SGI-Altix 350 High Performance Compute Server system is dedicated for research community for high-end computational work. Centre is also well-equipped with Scanners, Laser Printers, DMP printers and Multimedia projector. In June 2008, another unit of Computer Centre is set up at Energy Building with about 31 latest configured PCs. In addition, it also maintains the computing resources used by the faculty and the administration. University EPABX is also administered and monitored by the Centre. The Computer Centre has also set up a Helpdesk Cell to give technical supports to more than 800 PC users. The technical team also extends its help to students and other users for immediate troubleshooting of network connectivity issues of their Personal PCs and peripherals. For smooth functioning of the Computer Center, university maintains a proper *Computing Policy*. Computer Centre has two Clusters:-
