Selection Procedure

The Selection Test will comprise of a **structured presentation** and a **personal interview**. For the presentation, candidates are required to deliver a presentation on a topic of their choice. It is desirable that the presentation be based on some empirical data. The presentation should consists of the following distinct components.

1. Introduction: a. Background of the problem including literature review
 b. Statement of the problem and research questions, if any.
2. Objective of the work/study
3. Methodology followed
 This would include the approach taken to solve the problem, sources of data, data collection procedure(s) and analytical tools used, if any.
4. Analysis of the data
5. Findings and conclusion

The candidates will have to submit a written report on the topic before the presentation containing (but not limited to) the above. However, the written report must contain an Abstract of the work (within 300 words) and a detail Bibliography. The bibliography should be uniform and be written following any international standard.

After the presentation the candidates are required to appear in a personal interview.

The candidates are requested to come prepared to spend the entire day in the Department as personal interviews are scheduled only after all presentations are completed.
