Theme of the Seminar:

Higher education is extremely diverse and the challenges and issues faced by higher education institutions are found to be very crucial and multifaceted in the present scenario. Issues such as access, equity, inclusion, quality of research, privatization and financing etc. are integrally related with higher education. On the other hand, basic problems such as inadequate infrastructural facilities, less number of faculty, low enrolment rate, outdated teaching methods, declining research standards, low level of motivation among students, ethnic imbalances, gender bias, students drop out etc. persist in higher education. Besides, some other leading challenges such as continuous upgrading of curriculum, globalization, mushroom growth of private institutions, scarcity of fund to meet the demand of various novel programmes etc. has large impact on our higher education. Therefore, an attempt will be made in this Seminar to arrive at a reasonable solution of the issues and challenges in higher education in India in general and Assam in particular. Further, it is desired that the academic discourse in the seminar will bring certain results.
