# ASSIGNMENT

**Spring Semester - 2018**

**Course title:** Fundamentals of Disaster Management

**Course code:** DEM 104 *(1ˢᵗ Semester)*

**Total marks:** 30

1. Which ***disaster model*** explains the principle of ***progression of vulnerability*** in a system? Explain the concept of this model with one example.

    15

2. Consider a ***multi hazard prone area*** to which you are familiar and ***estimate the hazard specific disaster risk*** of this area ***at-least for two dominant hazards***, based on hazard and vulnerability analysis; in terms of low, high, or very high.

    15
