

Feedback Report- Spring 2023 (Introductory Intellectual Property Rights: IP250)

All four students provided feedback on the undergraduate CBCT course on IPR. Highlights of the feedback response are presented as following:

- The student centric approaches of teaching have been well received by the students.
- The course materials that the teachers frequently deliver to the students are deemed satisfactory by the students.
- It is acknowledged and appreciated that the instructors' approach to teaching and the use of ICT in the classroom make it easier for students to learn new concepts. Students have also mentioned about the using of whiteboards or blackboards to convey important subjects.
- A few students suggested that in order to stay informed about the most recent ideas from the university, students should exchange access to the patent invention list.

Actions Taken:

- Course instructors have done the arrangement for using both ICT set up and conventional white board for explaining the relevant topics for the benefits of the students.
- Study materials are always provided as per the requirement. However, as per the mentioned opinion in the feedback more study materials will be provided in Google classroom platform time to time as per requirement.
