

Feedback Report- Spring 2022

Course: IP750, Intellectual Property Rights in Research and Beyond

12 students provided feedback on the CBCT course on IPR meant for Ph.D students. Highlights of the feedback response are presented as following:

- The students appreciated the fact that a unit plan was made and implemented effectively, ensuring through coverage of the syllabus.
- The dialogic connection established between the students and the instructors were acknowledged as a positive point about the course delivery. The students suggested to have more group activities that encouraged student participation and critical thinking.
- Some students requested to include more topics on recent trends and developments regarding IPRs.
- Some of the students wished to have field visits wherever possible during the course.
- Students appreciated the study material provided to building of concepts.
- The motivation received in the classroom regarding application of IPRs for their own research work was appreciated by the students.
- The students found the case study videos helpful for understanding the concepts.
- Inclusion of very interesting topics like IPR and Outer space, IPR and gaming etc are very much well received among the students as part of the seminar presentation.

Actions Taken:

- The Cell is considering various ways to make field visit a part of the course
- More recent case studies will be incorporated in future.
