

BibTeX

- Prepare a bibliography database (eg. [us_nlp_bib.bib](#))
- Prepare your LaTeX document containing citations (`\cite{xyz}`) (eg. [dissert.tex](#))
- Run latex (eg. `$latex dissert.tex`)
- Run bibtex (eg. `$bibtex dissert`)
- Run latex again (eg. `$latex dissert.tex`)

Exercise: Create a bibliography database with different types of items in it. Create a LaTeX document that cites *some* items from the bibliography database.
